

Many of understand compassion as sympathy or feeling sorry for someone. This approach to compassion can be empowering for a survivor.

**Stewards of Children
teaches this.**

Compassion is warrior-like and something we can develop as an adult. It is grounded in love for humanity and it is also fearlessly committed.

**Stewards of Children
Teaches this.**

Our Mission Statement:

To provide education, information, and resources used toward preventing child abuse and neglect in Kearney and our surrounding communities.

Stewards of Children
is a crash course in being human.

In these training sessions you will be introduced to the personal tools needed to start your personal tool kit for protecting children

- Learn the facts and understand the risks.
- Minimize opportunity
- Talk about it
- Stay alert
- Make a plan
- Act on suspicions
- Get involved
- Break the cycle of silence

Stewards of Children is a program originated by *Darkness to Light*, a nonprofit organization that protects children from sexual abuse by placing responsibility on adult shoulders.

This training can be the beginning!

Child sexual abuse is a very complex problem in today's society. The information provided in our training does not teach a method of identifying offenders. The purpose is to give you some simple and pro-active steps to help protect children from sexual abuse, and tools to help keep you from getting yourself in situations which make you vulnerable to child abuse accusations.

Remember: Children do not exist in a vacuum: they go to school, sports, 4-H, scouts, dance, and church, just to name a few. This training will not only impact the trained adult, but each of the children they interact with.
